

Port Supply Privileges at West Marine

In 2003 the MBYC acquired a special Port Supply account # that is available for **member use only**.

Since 2003 the Marco Bay Yacht Club members have enjoyed the privilege of being able to purchase many items from West Marine (and formerly Boat US) at less than retail costs by using a Port Supply (Wholesale Division of West Marine & Boat US) account number.

Prior to January 2006 members were able to simply provide this # to West Marine (and formerly Boat US) when purchasing items.

When West Marine acquired the Boat US retail service, changes were made regarding group Port Supply accounts. In January, 2006, West Marine issued an instruction to all stores that members of a group account must be authorized signers and have a Port Supply card with their name and group account number on it in order to purchase items from West Marine using the Port Supply account.

Each member who wants to be authorized to use the MBYC Port Supply account must request a card for that purpose. It is a simple process. Port Supply Headquarters in California controls the issuance of the cards. Requests to become an authorized user of the MBYC Port Supply account must be submitted by the principal person designated by the MBYC Board of Directors to implement and monitor use of the account.

Until otherwise changed, David Brandt is the designated principal person to assure proper use of the account.
